Online Education

1. Does all programs/courses were completed on time.	Yes
--	-----

2. Measures taken to complete the syllabus of courses and programs.		The College made all reasonable steps to ensure that the syllabus was successfully completed on schedule. The key to achieving targeted educational goals is to focus on the curriculum. The proper implementation of the curriculum and timely completion of the course depend on the cooperation and participation of various people. The institution has a precise, sequential framework for delivering the curriculum that guarantees uniformity in the teaching, learning, and assessment processes and provides a defined benchmark for assessing student progress. Teachers, students, the principal, and other prominent figures are among those mentioned. The college creates its suggested academic calendar at the start of each semester. Departmental faculty meetings are arranged by heads of departments. These discussions cover workload distribution and how to carry it out efficiently. Distribution of the workload is presented to the principal. The department head and staff have regular conversations following which the departmental faculty prepares lesson plans before the commencement of the semester. No class was cancelled or postponed without a compelling reason. The entire course was successfully completed through regularly scheduled, well-planned classes within the allotted time frame and in accordance with the timetable and lesson plan, with end-of-semester exams held for both semesters during the academic session. The head receives feedback on the fulfillment of the curriculum in accordance with the planned lesson during the monthly board of studies meeting. A faculty member spent, on average, 50 hours completing each subject's syllabus. All courses' academic schedules, activities, and assignments were created and posted on the college website. Students were notified of the results of their assignments in a methodical way by the display of aggregated marks in a chart format on the college website. Periodically, academic reviews and criticism are collected. Regular meetings are held by concerned authorities to discuss the challenges faced by teachers. In order to teach successfully, teachers keep up with the most recent research and pedagogical methods.	
3. The period of delay in completion of syllabus (in months).		0	
4. The period of delay in conducting exams (in months).		0
